

Church Beautification Project

The landscaping has been on the church council's mind for a couple of years and is now complete. Apparently it was not to be done until this year, because moving the bell was not in the original plan.

The bell looks great in its new location by the front door and will get regular use- as it will be rung each Sunday morning.

The landscaping takes on the form of low maintenance, being that we are in the country and the east and west sides of the church can become very hot and dry.

As one person commented: "It's something to be proud of and to enjoy for many years."

It was a great opportunity to work together in beautifying God's house of worship just in time for our 150th anniversary celebration. Much was learned as we worked together to honor our Lord.

A special thank you to everyone who had a hand in its completion: material and equipment borrowed and used, as well as people's time away from normal work. It is nice to take pride in assuring God's house looks the best it can both inside and out.

Explosive Prayer

We have been seeing pictures of exploding bombs and reading news stories about atomic weapons. Here is what J. Edgar Hoover, the first director of the FBI (from 1935-1972) had to say about atomic bombs and prayer. "The spectacle of a nation praying is more awe inspiring than the explosion of an atomic bomb. The force of prayer is greater than any possible combination of man-controlled powers, because prayer is man's greatest means of tapping the infinite resources of God."
